

## The Drivers Day

This Driver CPC course is 3.5 hours and has been written by Driver Link Training with Qwizdom integrated within the course for a more enjoyable experience.

A course designed to briefly give general tips throughout the driver's day, starting with rest and preparation, all the way through to parking the vehicle up at the end of the shift. The course gives basic insights in to a varying array of vehicle types and general tips on how to use them correctly.

Qwizdom is an award-winning developer of interactive learning solutions that enhance presentation deliverability and user engagement. Driver Link Training have the exclusivity to use Qwizdom, KGS Recruitment Services are an approved consortium member so it stretches out to them. The Qwizdom has become a useful learning tool, which will enable the course delegates to get the best out of the course.

However, there will be time for questions to be asked during the course, if you want to know more.
